

## EXHIBIT B

**Confidential Treatment Requested**

July 6, 2023

**Updated Signal Log with DM Feature Information**

*This log updates Amazon's log of May 25, 2023 with a collection of potentially work-related Signal from BlackBerrys formerly used by Andy Jassy. Because the Signal communications on these BlackBerrys predate prior collections from Mr. Jassy, this update includes Signal messages and disappearing message ("DM") settings that post-date Mr. Jassy's receipt of a hold notice for the CID Investigation (hereinafter "this Investigation"), as well as earlier Signal messages and DM settings between Mr. Jassy and other custodians in this Investigation.*

*For ease of identification, information added to this updated log due to the collection described above appears in italics. Due to overlapping screenshots, the screenshot count for logged threads is often greater than the number of collected messages. To the extent collections included messages already covered in prior iterations of this log, no changes were made to the log.*

*Because the refresh period for this Investigation has long expired, this log includes potentially work-related Signal communications through May 2022. This timeframe was chosen for consistency with prior iterations of the log, all of which contained messages through May 2022 (the month by which Amazon had completed its original Signal collections). For prior Signal collection dates for particular custodians, please see Amazon's August 31, 2022 submission to the FTC and other correspondence.<sup>1</sup>*

Signal is a third-party messaging application that uses end-to-end encryption for secure communications. As has been previously disclosed, the use of Signal among certain Amazon executives and employees began in 2019 following the hack of Jeff Bezos's cell phone, reportedly by hostile foreign actors. As a result of this hack and ongoing concerns about unauthorized efforts to gain access to Amazon's executives' communications, certain executives and employees began using Signal in a limited fashion for short, typically time-sensitive communications, in addition to non-substantive or personal communications. Even as some Amazon executives and employees began to use Signal, other forms of electronic communication—like email and Chime—remained the primary method of work communications.

Per your request, the log below includes Signal communications involving CID custodians that Amazon has collected through its due diligence, and provides additional information on the settings of the DM feature in those communications.<sup>2</sup> None of the collected messages was responsive to the CID under the parameters of the September 29, 2020 Final Production schedule. Most collected messages were brief or non-substantive in nature. Other collected messages were substantive but related to aspects of Amazon different than those at issue in the CID or were outside the relevant production period.

---

<sup>1</sup> Amazon's extensive engagement with the FTC on this issue includes prior correspondence dated March 22, May 20, July 15, and August 3, August 29, August 31, September 26, October 4, October 6, and November 11, 2022, and January 17, January 20, February 8, and May 1, 2023.

<sup>2</sup> Amazon is providing the information in the log without any intent to waive any privileges, protections, or immunities, including, without limitation, the attorney-client privilege, work product protection, and any other applicable privileges or protection from disclosure. However, certain materials included in the log are privileged, as indicated, for example, by the involvement of an attorney or other indicia of privilege. The descriptions in this appendix include only the subject matter of the thread and are not intended to reveal any privileged communication.

**Confidential Treatment Requested**

Given the way Signal functions, Amazon cannot determine with certainty whether any substantive messages responsive to this Investigation may have been lost due to the DM function. Based on Amazon's diligence as well as the custodians' testimony in FTC investigational hearings, however, Amazon does not believe that the use of Signal or the DM feature materially impacted the company's ability to provide a comprehensive production in response to the CID. Even if a small number of potentially responsive messages were no longer available due to the DM feature, there is no reasonable basis to conclude that the Commission was prejudiced. Signal communications were minuscule compared to the millions of pages of documents and many terabytes of data that Amazon collected in its response to this Investigation. Moreover, the topics that the Commission is investigating here—including Amazon's approach to retail, Prime, pricing, and fulfillment—span many years and involve decisions that are carefully studied and well-documented in Amazon documents. While the seven relevant executives occasionally sent or received substantive, work-related messages via Signal, material communications concerning Amazon's significant business decisions occurred through other means—including email, Chime, and related attachments—that were systematically collected and produced, evidenced by the more than 125,000 documents produced from the files of those seven custodians alone. This is particularly true given Amazon's well-documented and longstanding corporate culture of drafting detailed documents for meetings and important decisions—documents that FTC staff has used to probe Amazon's business practices in great depth in the dozens of investigational hearings conducted to date in this Investigation.

In addition, as we have informed you, Amazon launched an enterprise version of Wickr—a secure messaging application owned by Amazon—for internal use. Amazon's enterprise version of Wickr can be used by Amazon executives and employees to send each other secure, end-to-end encrypted messages, while allowing Amazon to preserve messages sent and received by executives and employees who are on litigation hold.

Subject to that context, for each Signal thread below, the log identifies the following available information: (i) the participants in the thread; (ii) the date range of the thread; (iii) the number of logged screenshots; (iv) the title of the thread (available for threads with more than two participants); (v) the subject matter of the thread, if the thread included any messages at the time of collection, and (vi) changes (if any) to settings of Signal's DM feature before collection.<sup>3</sup> Where the DM feature was enabled at the time of collection, custodians were again provided legal guidance regarding Amazon's preservation obligations.

Amazon produced some of the collected threads as responsive in a separate FTC investigation of Amazon's acquisition of MGM and reproduced them for overlap custodians in this Investigation. The produced threads are bolded below, and the associated Bates numbers are provided below such entries.

---

<sup>3</sup> Amazon's collection of Signal messages relied on capturing screenshots of a custodian's phone. An individual screenshot may include one or more unique messages, and in some cases the content in separate screenshots overlaps. For this reason, when the same message thread was collected from multiple custodians' phones, the number of screenshots may differ between collections. Additionally, some collected threads and screenshots included in this appendix do not include any message content, but do include other content (e.g., identity of the individuals on the thread; date when the disappearing feature was enabled or disabled).

**Confidential Treatment Requested**

The log is organized in chronological order.

- Jeff Bezos and Stephen Schmidt on April 2, 2019, comprising one screenshot.
  - DM settings before collection were as follows: 30 minutes on April 2, 2019 (Bezos).
- Jeff Bezos and David Zapolsky on April 2, 2019, comprising one screenshot, providing contact information.
  - DM settings before collection was as follows: 30 minutes on April 2, 2019 (Bezos).
- Jeff Bezos and Andy Jassy between April 2, 2019 and April 22, 2019, comprising two screenshots.
  - DM settings before collection was as follows: 30 minutes on April 2, 2019 (Bezos); 6 hours on April 2, 2019 (Jassy); 30 minutes on April 2, 2019 (Jassy); six hours on April 3, 2019 (Jassy); 30 minutes on April 3, 2019 (Jassy).
- Jeff Bezos and [REDACTED] between May 3, 2019 and May 7, 2019, comprising three screenshots, relating to logistics.
  - DM settings before collection were as follows: 1 week on May 7, 2019 (Bezos).
- Jeff Bezos, [REDACTED] and [REDACTED] between May 13, 2019 and June 15, 2019, comprising two screenshots.
  - DM settings before collection were as follows: 1 week on May 13, 2019 (Bezos); disabled on June 15, 2019 ([REDACTED]).
- Jeff Bezos and [REDACTED] between May 13, 2019 and May 15, 2019, comprising two screenshots, relating to scheduling.
  - DM settings before collection were as follows: DM was never enabled.
- Jeff Bezos, [REDACTED], and [REDACTED] on May 15, 2019, comprising two screenshots.
  - DM settings before collection were as follows: 1 week on May 15, 2019 (Bezos).
- Andy Jassy and Jeff Wilke starting on May 25, 2019 and comprising 34 screenshots through May 2022, relating to personnel and personal issues.<sup>4</sup>
  - DM settings before collection were as follows: 30 minutes on May 25, 2019 (Wilke); disabled on Aug. 15, 2019 (Wilke); 1 day on Sept. 1, 2019 (Jassy); 1 day on unknown date (Jassy); 1 day on unknown date (Wilke); disabled on Jan. 3, 2021 (Wilke); 1 day on Jan. 4, 2021 (Jassy); 1 week on Feb. 22, 2021 (Jassy); disabled on Dec. 6, 2021 (Jassy).
- Jeff Bezos and Beth Galetti between June 2, 2019 and July 11, 2019, comprising one screenshot, relating to HR.
  - DM settings before collection were as follows: DM was never enabled.
- Jeff Bezos, Jay Carney, and Andrew Herdener between June 4, 2019 and July 11, 2019, comprising 3 screenshots, titled “Jay, Drew, Jeff” relating to personal and business-related social media posts.

---

<sup>4</sup> This thread was previously logged. 22 additional screenshots were collected from Mr. Jassy in the collection reflected in this update.

**Confidential Treatment Requested**

- DM settings before collection were as follows: 1 week, but specifics are unknown.
- Jeff Bezos and Jon Rubinstein between June 5, 2019 and June 7, 2019, comprising one screenshot, relating to real estate.
  - DM settings before collection were as follows: DM was never enabled.
- Jeff Bezos and Jay Carney between June 5, 2019 and June 13, 2019, comprising two screenshots, relating to personal business, and a tax issue.
  - DM settings before collection were as follows: 1 week, but specifics are unknown.
- Jeff Bezos, Jay Carney, Andrew Herdener, and Neal Karlinsky on June 10, 2019, comprising one screenshot.
  - DM settings before collection were as follows: 1 week on June 10, 2019.
- Jeff Bezos and [REDACTED] between June 12, 2019 and July 16 2019, comprising two screenshots, relating to scheduling meetings for personal and business issues.
  - DM settings before collection were as follows: 1 week, but the specifics are unknown.
- Jeff Bezos and [REDACTED] on June 12, 2019, comprising one screenshot.
  - DM settings before collection were as follows: 1 week on June 12, 2019 (Bezos).
- Jeff Bezos and Jay Carney on June 15, 2019, comprising one screenshot, relating to public relations personnel.
  - DM settings before collection were as follows: 1 day on June 17, 2019 (Bezos).
- Jeff Bezos and [REDACTED] between June 15, 2019 and July 11, 2019, comprising four screenshots, relating to scheduling and logistics.
  - DM settings before collection were as follows: one week on July 9, 2019 (Bezos).
- Jeff Bezos and Andy Jassy between June 19, 2019 and July 17, 2019, comprising two screenshots.
  - DM settings before collection was as follows: 1 week on June 19, 2019 (Bezos); 1 day on June 27, 2019 (Jassy); 1 week on June 29, 2019 (Jassy); 1 day on July 17, 2019 (Jassy).
- Jeff Bezos and Andy Jassy between June 27, 2019 and July 11, 2019, comprising four screenshots, relating to employee compensation and related issues.
  - DM settings before collection was as follows: disabled on July 11, 2019 (Jassy).
- Jeff Bezos and Neal Karlinsky between July 9, 2019 and August 22, 2019, comprising 18 screenshots, relating to social media posts regarding the Seattle Spheres at Amazon's headquarters.
  - DM settings before collection were as follows: 1 week on August 21, 2019 (Bezos).
- Jeff Bezos and David Zapolsky on July 14, 2019, comprising one screenshot.
  - DM settings before collection was as follows: 1 week on July 14, 2019 (Bezos).
- Jeff Bezos, [REDACTED], and Andrew Herdener between July 17, 2019 and August 2, 2019, comprising 17 screenshots, relating to a news story concerning [REDACTED].

**Confidential Treatment Requested**

- DM settings before collection were as follows: 1 week, but specifics are unknown.
- Jeff Bezos and Judy McGrath between July 31, 2019 and August 2, 2019, comprising one screenshot, relating to HR issues.
  - DM settings before collection were as follows: DM was never enabled.
- Jeff Bezos and Beth Galetti on July 31, 2019, comprising one screenshot.
  - DM settings before collection were as follows: 1 week on July 31, 2019 (Bezos).
- Jeff Bezos, Beth Galetti, and Jeff Wilke between July 31, 2019 and August 8, 2019, comprising nine screenshots, titled “Jeff, JAW, and Beth” relating to HR.
  - DM settings before collection were as follows: 1 week on August 8, 2019 (Bezos).
- Jeff Bezos and Jeff Blackburn on August 2, 2019, comprising one screenshot.
  - DM settings before collection were as follows: 1 week on August 2, 2019 (Bezos).
- Jeff Bezos, Jay Carney, and Andrew Herdener between August 5, 2019 and August 16, 2019, comprising five screenshots, titled “Jeff & Drew” (and later “Jeff, drew, jay”) relating to compensation, [REDACTED], and a news story relating to the hacking of Bezos’s phone.
  - DM settings before collection were as follows: one week on August 16, 2019 (Bezos).
- Jeff Bezos, Andy Jassy, and Andrew Herdener on August 6, 2019, comprising three screenshots, titled “Jeff B, Andy J, Drew H” and relating to logistics for an AWS CEO summit.
  - DM settings before collection were as follows: DM was never enabled.
- Jeff Bezos and Jeff Wilke on August 8, 2019, comprising one screenshot.
  - DM settings before collection were as follows: DM was never enabled.
- Jeff Bezos and Russ Grandinetti on August 12, 2019, comprising one screenshot.
  - DM settings before collection were as follows: 1 week on August 12, 2019 (Bezos).
- Jeff Bezos, Jay Carney, Mike George, and Andrew Herdener on August 16, 2019, comprising one screenshot, and titled “Jeff, Jay, Mike, Drew.”
  - DM settings before collection were as follows: DM was never enabled.
- Jeff Bezos and Dave Limp on August 19, 2019, comprising one screenshot, relating to a news article about Disney+.
  - DM settings before collection were as follows: 1 week on August 19, 2019 (Bezos).
- Andy Jassy and Paul Kotas between August 26, 2019 and April 25, 2022, comprising eight screenshots, relating to personnel issues and remote work.
  - DM settings before collection were as follows: 12 hours on August 26, 2019 (Jassy); disabled on March 5, 2020 (Jassy).
- Jeff Bezos, Jay Carney, Mike George, Andrew Herdener, Neal Karlinsky, and [REDACTED] between August 21, 2019 and August 28, 2019, comprising 32 screenshots, titled “Jeff, Neal,
